

Week beginning Monday 27th April

Hi 7LS families!

Hope you have all been enjoying this beautiful sunshine that we have been having these past weeks. I know that not all of our pupils enjoy being outdoors, but sometimes it just cheers us up looking at the sun through the window, doesn't it! I know that it has helped me, to see the sun whilst sitting at my desk at home, plugging away on the laptop!

I am missing our class so much, so thank you again for the lovely photos you have sent me this past week. It really is so encouraging to see the children looking so well and happy.

For this coming week's home learning, I have prepared a sensory story 'The Curious Caterpillar'. I hope the children will enjoy this story, which is linked to our Summer Term theme 'Changing and Growing'. As always, do share this story several times during the course of the week so that the children become familiar with the story and can start to anticipate some of the sensory experiences.

I have also put some ideas for butterfly related activities which you might like to try this week as well.

The movement and massage activities on our website, including the 'Touch and Communication' videos and Story Massages are also really positive; again the children will benefit from using these many times to work on their physical development and to help them to relax their bodies and minds.

I hope that the children will enjoy all of these activities.

They can all be found in the 7LS area of our school website, under 'Subjects / Sensory Learners'.

As always, do email me with any questions you have or support you may need with using any of these resources.

Have a good week!

Melanie and the 7LS class team
