

Welcome to the 2nd Edition....

I've begun by summarising previous resources
and then sign posting you to some new resources
too! Enjoy!

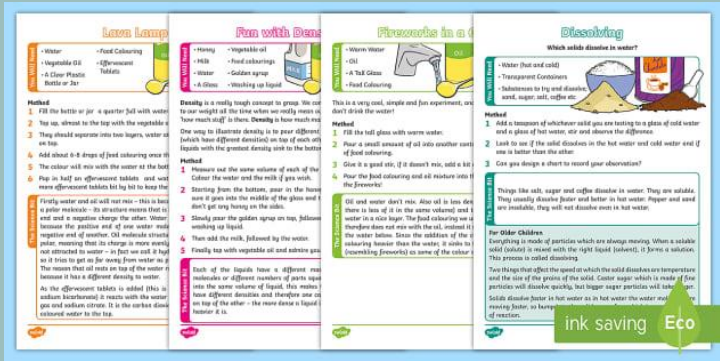

SCIENCE HOME LEARNING

Maddie Moat takes on a different topic each week with daily videos. Her themes so far have included garden week, brilliant bodies, space, dinosaurs, earth and ‘making’.

<https://www.youtube.com/user/maddiemoate>

Experiment Activity Sheets These are available on the school website in the ‘Science’ section.

MORE FREE BOOKS...

I previously let you know that you can download 'Everyday Materials' for free. You can now download all of the following books for free too. Enjoy! <https://www.rubytuesdaybooks.com/learningathome>

BBC Bitesize Science Lessons

Bitesize

The BBC are uploading daily science lessons for every year group in primary and secondary. These are worth dipping into, especially if there are areas you're particularly interested in. Today's theme across the different age groups is plants!

6 May: Science

Basic parts of a plant

6 May - Learn about the basic parts of a plant

6 May: Science

What plants need to live

6 May - Learn what plants need to live

6 May: Science

How plants reproduce

6 May - How plants reproduce

Get Growing!

What's the best way to understand how a seed turns into a plant? Watch it happen! To do this project you will need a zip lock bag for each child, dried beans, and paper towels

You can access step by step instructions to grow your own beans through the 'Community Playthings' website.

This is a brilliant way to see the roots and shoots of your plant as it grows taller and taller!

CONGRATULATIONS J.J

Huge well done to J.J who has been learning to plant his flowers in the planters that he made with his family.

Well done J.J, we look forward to seeing how they all grow!

SCIENTIST OF THE WEEK

By Mrs Hockey

If you have any ideas you'd like to share on here or anything you would like me to find out more about for you then just drop me an email. I am hoping to set up an online 'Science Club' so watch this space...!

Don't forget to send me your photos and you could be our next scientist of the week. I love hearing from you.

AER53@CHADSGROVE.WORCS.SCH.UK

Mrs Hockey
