Hello to our wonderful families and college friends. We have had a busy few weeks taking part in lots of celebrations! Even though things are different this year we are making the most out of being together and creating our own special events in class. We all experienced being scared during our Halloween activities and quite liked it! We had a spectacular time sharing a firework story on zoom and designed our own fireworks for our very own display. Remembrance Day activities gave us the opportunity to reflect and be thankful for all we have. We hope you enjoy this edition of link news and join in with the celebrations!

It is dark outside and we can see the moon and the stars **(The bounce)**

We might feel scared when it is dark. Everyone feels scared sometimes. **(The squeeze)**

We can tell our family, friends and teachers if we feel scared and they will help us to feel safe. **(The calm)**

Halloween is different this year but we can still have fun with our friends and family. **(The circle)**

Everyone worked hard on their firework design and thought hard about how they could make them noisy! After all the excitement it was time to cook some crumpets on our hot bonfire!

College News

Students and staff at Chadsgrove college were very grateful to Manishi from QAC college for talking to them about Diwali. Students were really fascinated to hear about the importance of Diwali within Hindu culture and how it is celebrated. They asked lots of great questions and learnt a lot!
